

MACMANUS MUSIC PROJECT - ROCK ACADEMY

Does your child dream of rocking out on stage?

At The MacManus Music Project, we're here to make those dreams come true! Our weekly **Rock Academy** is designed to turn budding musicians into confident rockstars.

How does it work?

Imagine trying to teach 4 different languages to 4 different children at the same time - sounds difficult doesn't it! That's because it is and it makes it hard for children to make the progress they and you want to see. ***We think there's a better way!***

Our Rock Academy uses a three step approach...all during the school day!

Step 1

Master your Instrument!

Work in small groups to master your instrument

Step 3 Perform!

*You've mastered your instrument, played as a band - now it's time to perform**

How much will it cost?

Rock Academy works on a **monthly subscription of £34.99**. We also offer tuition during all school holidays, so the music never has to stop!

Step 2

Form the Band!

Having mastered your instrument, it's time to rock out with your band

**Each half term you will receive a video of your child's performance & a concert in person in the summer term!*
