

ACTIVITIES LIST

PERSONAL DEVELOPMENT

Welcome Week	An introduction to The Outdoors Project's after school clubs. We'll cover a few rules & boundaries, then get into the fun stuff with some games: Electricity, Doctor Tag & Capture The Flag	Social skills, nature & wellbeing, learning through play, having fun
Randomiser: Team Building Series	The power is in your hands, which games will be chosen? A special edition of team building challenges: Tanks, The Grid, Monkey Ball, Pegs, Floating Sausage Trick, & Fly Away Peter	Teamwork, social skills, problem solving, hand-eye coordination, fun
Mini Marshmallow Catapult Build Project	A fun crafting/building project to launch mini marshmallows! The kids will each build a small catapult which they can take home. Get ready for launch!	Crafting skills, engineering, dexterity, hand-eye coordination, social skills
Minecraft Emerald Hunt & Ore Making	Embark on a real-world Minecraft adventure – searching for hidden “emerald ores” & then using “clay” to craft your very own treasures	Teamwork, creativity & imagination, positive technology use, sensory play
Dragons Of Berk - Bolas (Slingshot) Making	A bolas is a historic hunting weapon which was used by many cultures & is shown in the children's film How To Train Your Dragon used by the Vikings. This simple but effective tool is thrown towards a target, entangling the legs & tripping over its target - perfect for catching the pesky Dragons of Berk!	Engineering, hand-eye coordination, history, imagination, film & pop culture
Toy Story Slime Workshop	Today is the day we get messy & pay homage to the Toy Story films. We'll be creating alien slime & playing The Claw Is Our Master! Let's go!	Science, messy & sensory play, film & pop culture
Mini Robot Build	Those naughty robots are at it again, so we'll be building a mini robot squad to face them. Grab some clay, a collection of nuts, bolts, buttons & sticks, some string or springs, & let's make mini robots	Arts & crafts, imagination, & storytelling
Circus Skills	A fun, open, free-play session with little structure, teaching circus skills such as diabolo, juggling, hula-hoops, pedal racers & more	History, ancient crafts, physical education, hand-eye coordination, new skills
Bushcraft: Solar Fire Lighting	Exploring solar energy & its application of fire lighting through practical demonstrations, encouraging creative thinking - utilising available resources for survival, & having a go ourselves. We'll be emphasising fire safety rules & learning the principles behind fire	Bushcraft & survival skills, resourcefulness, solar energy & physics, fire safety, practical hands-on learning
Bushcraft: Shelter Build	A classic bushcraft shelter building session. Work in small teams, get creative & be resourceful - anything goes!	Bushcraft - resourcefulness, survival & building skills; safety, risk management, teamwork & social skills, physical exercise, hand-eye coordination
Nerf: Wild West	Join us for this cowboy-style Wild West edition of Nerf games where we'll be reenacting a Wild West bank heist! Will you be a sheriff coming to save the day, the bank manager, or one of the pesky bank robbing bandits?	High & low energy gameplay, teamwork, physical exercise, storytelling
Kids Vs Instructors	The ultimate showdown: instructors vs kids! Join us for a match of the classic game, Capture The Flag, with a twist!	Physical education, teamwork & game play, hand-eye coordination, strategy & planning
Water Games: Noodle Ball	Is it football, is it a water fight, NO it's Noodle Ball!!! A silly fun take on football using water noodle blasters to save water, clothes & just gave a silly fun game in the sun. (no rolling around in the penalty box here!)	High & low energy gameplay, teamwork Physical exercise, summer fun
